Notes: Bills that were enacted on or before the first day of the fiscal year (October 1) are considered to have been enacted by the start of the fiscal year. Legislative action on most bills occurred in the session indicated, but in some cases legislative action was not completed until the following session. For FY1997, two continuing resolutions were enacted to provide temporary funding for certain unauthorized programs omitted from the applicable regular appropriations acts. For FY1997, all regular appropriations were enacted by the beginning of the fiscal year but six regular bills were consolidated into an omnibus act.
